

**TWO ASSISTANT POSITIONS (50%-70%) in
BEHAVIOURAL ECONOMICS/FINANCE or QUANTITATIVE FINANCE**

The Chair of Mathematics (Department of Economics) of the University of St.Gallen opens two new **50%-70% assistant positions** to be filled starting in January 2018.

The candidates for these positions are expected to start the PhD program in Economics and Finance at the University of St.Gallen (see <http://www.pef.unisg.ch>) during the Spring Term 2018, under the supervision of Prof. Dr. Enrico De Giorgi.

The successful candidates will be integrated in a young, research-oriented team, with a strong foundation in quantitative methods for Finance and Economics and they will contribute with research and teaching activities. The group is located at the Faculty of Mathematics and Statistics of the University of St.Gallen (<http://www.mathstat.unisg.ch>) and counts around 25 members.

Candidates for these positions should have a master degree in economics, finance or mathematics and fulfill the formal conditions requested to join the PhD program in Economics and Finance at the University of St.Gallen (see <http://www.pef.unisg.ch>). Strong interest in theoretical and empirical methods for behavioral economics and finance will be an important asset.

Applications for the positions should be sent by e-mail to **Mrs. Margit Albers** (mathstat@unisg.ch) no later than **30 November 2017**.

The application package must contain:

- motivation letter;
- complete curriculum vitae;
- two reference letters;
- transcripts.
